Comments:

1. While some might say this class was overly easy I beg to differ. Because of the lax rules I felt I was better able to learn and apply the new techniques efficiently. Instead of rushing to meet an unreasonable deadline or page count I could focus of making my writing complex, compelling, and effective. This is the first time since elementary school that I feel I have learned about the techniques of writing and am able to implement them.

3. Since I came from Juarez almost three years ago, I didn't really had any experience with writing essays or citation formats. Professor Billy Cryer helped me to develop my skills in a huge way and make me understand that everyone can write properly according to situations no matter what. He helped all of our class to write effectively and he encouraged each and every one of us to express our ideas in paper in a way to learn writing. I believe that was one of the strategies that helped us to make a good writing progress.

4. Billy has been the greatest instructor! He really encourages us to do our best and always makes himself available when we need help with anything. Overall, I really enjoyed his teaching ways, they were very effective. 10/10!
5. Professor Cryer made sure to give everyone a good chance at passing and was more than eager to help in any way possible. Throughout the year he focused primarily on his students and their understanding of writing and rhetoric which I believe helped the class do well as a whole.
